Aspiring Front End Web developer who is very detail oriented and has a constant dedication to learning. I am currently pursuing a life-long career into something I really enjoy doing and believe I shine at which is Front End Web Development. I have been self learning coding via online courses for around a year now and I have also just graduated from a Front End Web Development bootcamp. In my current position as a kitchen designer I oversee and arrange kitchen fits which involves a lot of problem-solving and being extremely methodical which I excel at.
